

# Dependable Demolition Quick Info

## What We Can Do

Dependable Demolition offers inventive and trustworthy demolition services that recycles and disposes of a wide range of discarded materials.

## Where Does The Waste Go After Demolition And Removal?

We recycle and reuse metal, wood, siding and much more. Removing door knobs from doors, separating items before demolition, and donating to charities such as [Builders Care](#), Dependable Demolition will go the distance for responsible demolition.

## Who Does The Demolition?

Dependable Demolition ensures simple and quality junk removal service right where you are. You provide us with the project and we deliver pre-screened, licensed, insured, and reputable local demolition contractors.

## What Kind Of Structures Can You Provide Service For?

From a [garage demolition](#), a [mobile home demolition](#), or a [kitchen remodel](#) to excavating services, [environmental removal](#), or [swimming pool removal](#), there is no job too large or small for us. We listen to your specific need and find the perfect local demolition contractor to answer your need.

## Emergency Cleanup Services

Dependable Demolition assists in emergency cleanup, safely clears wreckage and debris and excavates destroyed areas to prepare for rebuilding. Whether you have uprooted trees, fallen electrical poles, concrete debris or unstable structures, Dependable Demolition provides you with safe service and fast response. We first identify potential hazards of the disaster area and strategize the most effective cleanup process. Then we work together with local contractors to quickly remove debris and clear channels of communication.
